

WELLNESS SOLUTIONS

powered by  **ALARM.COM**

More than an emergency button — Alarm.com Wellness is a complete 24/7 safety net. Our solution offers a secure and cost effective option for independent living with safety, security, and comfort.

Activity Patterns

Understand your family member's activity pattern and get an alert if something is out of the ordinary.

Up and About™

Make sure your loved one is active during normal hours.

Security & Automation

Simplify daily routines with automated temperature, light and security settings.

TBI SMART HOME SOLUTIONS

SECURITY · CONTROL · CONVENIENCE

Alerts

Be alerted if your loved one is wandering or leaving the house at odd hours.

Fall Detection

Receive alerts when no activity is detected, or the bed is left vacant for a long time at night.

Stay Safe

Get additional peace of mind with 24/7 emergency response for intrusion, fire and medical emergencies.

Bed sensors make it easy to see if Mom got out of bed this morning

Alert buttons can be placed in high-traffic areas of the home

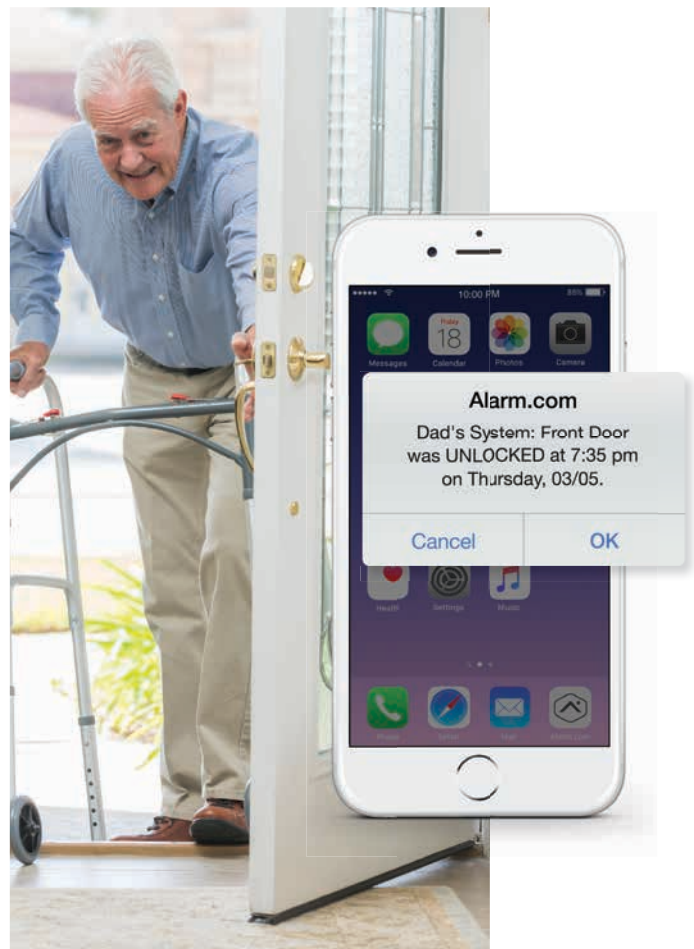

Enhance Independence and Comfort

Wellness simplifies routine tasks with seamless automation across the home's critical systems. Easy to use rules and schedules allow you to automate lights, thermostats, locks and security – so your loved one doesn't have to remember to turn lights on or off, or lock the door every night.

Independence and Peace of Mind

- ✓ Know if Mom got out of bed this morning
- ✓ See if Dad left the house for his morning walk
- ✓ Receive a notification if Grandma misses her medication
- ✓ Get an alert if fire or carbon monoxide is detected

Compare Wellness to Traditional Panic Pendants

	Wellness	Traditional PERS
Sends alerts even when an alert button can't be pushed	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Delivers customized notifications and real-time updates	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Increases night-time safety with a wireless bed sensor	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Tracks behaviors and shows trends over time	<input checked="" type="checkbox"/>	<input type="checkbox"/>
