

Deke's Tavern & Table opens at Brier Creek Country Club

Formerly known as Deke's Grille, Deke's Tavern & Table reopened at the end of April to an excited membership. A completely redesigned layout and all new furniture, lighting and décor are just a few of the new features. The space is now cleanly divided into first the Tavern – a bar area featuring 6 televisions, both tables and bar seats and an expanded offering of local draft beer. Members wanting to enjoy a meal with friends and family in our dining room, known as the Table, now have access to more seating and televisions.

In honor of Deke and Arnold Palmer, canvas paintings of photographs hang on the walls throughout the entire restaurant. These photographs capture special moments in their lives and memories made at Brier Creek Country Club. The Deke's Tavern & Table logo can be seen from when the member first steps into the restaurant and walks past the copper sign on the door, to the glassware, to the menus. Executive Chef Kevin Cavanaugh released all new menus featuring delicious Brier Creek staples and exquisite new offerings inspired by a variety of locations and cultures. Our outdoor seating area now has two televisions, making game watching an even better dining experience. The restaurant is also home to three society tables, inviting members to join other parties at one large table, forging new friendships and making new memories.
