THE BIANCO HIGHLIGHTS

- A beautiful covered entry leads you into the dramatic foyer which showcases a radiant curved staircase and extends views out to the intimate courtyard.
- The open-concept design unifies both the dining room and great room, which boasts a cozy fireplace and provides rear yard access, creating the perfect entertainment space.
- Completing the stylish kitchen is a sizeable center island with a breakfast bar, a walk-in pantry, plenty of counter space, and an adjacent nook for informal dining.
- Enhancing the magnificent master bedroom suite is an elegant tray ceiling, a desirable retreat, an enormous walk-in closet, and a luxurious master bath that includes a 6' standalone tub, a shower with a seat, a convenient linen, and a dual-sink vanity.
- Additional highlights include a delightful multi-purpose loft, a spacious laundry room, a convenient powder room, and four secondary bedrooms that each have their own walk-in closet.
